—It is said the new corn harvesters,  
drawn by one horse, can cut and bind  
100 shecks in one day. The new ma-  
chine makes the cost of cutting less  
than 50c a sheck, whereas 7 and 8  
cents were paid by cutting by hand.  
This will benefit the farmer but will go  
pretty hard with men who could earn  
pretty good wages with the old corn  
knife which will soon be forgotten.

—An exchange asks the farmers to  
remember that every acre of corn fod-  
der used on the farm will realize him  
at least two tons of hay for the market.  
It is worth, therefore, what two tons of  
hay will bring in the market. The  
short crop and high prices of hay will  
force attention to the enormous waste  
of stock food and cause more corn fod-  
der to be used on the farm this year  
than ever before.

the most successful one ever held, and  
much of its success is due to the efforts  
of its officers, and particularly secretary  
Noyes.

—The attractions at the Peoples  
Theatre, Toledo, next week, are un-

ever popular Donnelly and Girard in

appropriate dedicatory exercises, the  
programme of which will be published  
in these columns next week.

—Clem Comstock of the JOURNAL  
forces, narrowly escaped being burned  
to death last Monday. He drew on a  
pair of gloves and was rubbing them in  
benzene to clean them, and while the  
gloves were still wet he lighted a  
match which ignited the benzene and  
but for the prompt assistance of others  
he would have been burned to death.  
As it is he is nursing some bad burns  
which will require a couple of weeks'  
time to heal.
